ABOUT US...

Pasture Management Systems, Inc. is a premier distributor of agricultural fence supplies and livestock management equipment. When we incorporated in 1993, our focus was helping cattle graziers implement temporary electric fencing systems that would allow their herd to better manage their grass. By promoting rotational grazing techniques (where herds are consistently rotated between smaller pastures within the perimeter fence to increase natural grazing days) and supplies needed to build them, we were able to help increase the yield livestock producers earned to support their families and employees.

As our business grew, so did the breadth of our warehouse inventory. We began importing top brands of electric fencing products from New Zealand. Over the years we began distributing items needed to build permanent electric fencing systems as well as non-electric perimeter fences and gates that support all Cattle, Equine, Sheep/Goat, and Hog farms. We also selectively added several types livestock management equipment we knew would protect the investment of the owner and promote efficient operations.

Today, we distribute to local, independent farm supply stores in Florida, Georgia, North and South Carolina, Virginia, West Virginia, Kentucky, Tennessee, and Alabama. Our outside sales team members are frequently in our customers stores providing education on fence building techniques, marketing strategies, and the value our brands offer to an independent store. We do not sell our products to big box farm stores and want independent stores to be successful. Most of the brands we distribute are not available at big box stores. Our products offer unique points of difference that provide the end user more value relative to big box brands at competitive prices.

Looking forward, Pasture Management Systems will continue to expand its distribution network into additional states, develop our private label products (Pasture Management Electric Fence Accessories, Pasture’s Pride gates, and Dixie Classic Feeders), and continually search for the highest quality and most reliable brands in the world to bring to our customers. We hope you find our catalog of our warehouse inventory and guidelines helpful.

Thank you for the opportunity to continue to serve you.
ALL UNITS FEATURE:
AC-powered 110-volt, Low-impedance energizer.
Indicator light shows when energizer is pulsing.
Large terminal knobs provide easier and tighter wire connection.
Made in New Zealand and backed by 70 years of manufacturing excellence.

ECONOMY SERIES ENERGIZERS

2-YEAR FULL REPLACEMENT WARRANTY, LIGHTNING INCLUDED!

PMX SERIES ENERGIZERS

PMX50
4/case
Ideal for smaller fence lines.

PMX120
4/case
Suited for farms with smaller numbers of livestock.

PMX200
4/case
Ideal for medium to large farms with a larger number of livestock.

PMX350
4/case
Provides more power for those slightly larger farm areas.

PMX600
4/case
Designed specifically for larger farms with a large number of livestock.

PMX1500
4/case
MOST POWERFUL ENERGIZER IN THE PATRIOT LINE!
Robust and rugged design!

M63RS 220 volt Remote Energizer System

The M63RS Remote Energizer System can sense energy changes along the fence line and adjust the output accordingly. This maximizes safety while providing optimum livestock control. Perfect for large properties with extensive electric fencing systems and game facilities. Requires a 220/240 volt power source.

3-YEAR FULL REPLACEMENT WARRANTY, LIGHTNING INCLUDED!

---

**PS5 4V Solar Unit**
- 4/case
- Ideal for keeping small nuisance pests out, or for keeping small animals safely contained.
- 1-year Warranty, including lightning

**SG80 6V Solar Unit**
- 4/case
- Ideal for all types of settings, including large farms and strip grazing.
- Uses SLA905 6-volt battery - See below.
- 3-year Warranty, including lightning, repairable unit

**SG150 6V Solar Unit**
- 4/case
- Ideal for all types of settings, including large farms and strip grazing.
- Uses SLA905 6-volt battery - See below.
- 3-year Warranty, including lightning, repairable unit

**BATTERY ENERGIZER**

**AN90 Strip-Grazer**
Item #: FSTAN90
Powers up to 1.25 miles
0.12 output joules (0.16 J stored joules)
Powered by 4 “D” batteries or a 12-volt battery
3-year warranty, lightning included

**AN90 Strip-Grazer with Stand**
Item #: FSTAN90WS

Contact us with Product Questions or to find a Dealer near You.
HELPFUL TIPS FOR SELECTING A CHARGER

Focus on Joule Rating
The number of Joules in a charger is the primary rating to consider when deciding how “powerful” a charger is. Miles, Acreage, Volts, and Watt Ratings on chargers can be very deceptive and should only be used as a general guideline. A Joule, or the unit of measurement of energy exerted per pulse, is the only statistic that will accurately provide the power of the charger. Output vs. Stored Energy should be evaluated as well. Some manufacturers only market the Stored Energy Joule Rating. The Output Rating is what the charger can actually produce in terms of Joules. A good rule of thumb is selecting a charger that has a 1 Joule (J) output energy rating for every 6 miles of electric wire.

Power Source
While using 110v AC (plug in) may be the most efficient use of power for a charger, the 12v DC (battery or solar powered) offers benefits if AC power is unavailable or unreliable. Generally, an AC powered charger is sufficient for permanent fencing needs. A DC powered charger provides flexibility for temporary, rotational grazing fencing systems.

Energizer vs Unigizer
This is simply how Stafix distinguishes between an AC powered charger (Energizer) and a charger that can be powered via AC or DC source (Unigizer)

Fence Testers, Lightning & Grounding Equipment

Patriot Single Light Tester
Item #: 826863
Light shines if voltage is present on the fence. Suitable for use with most types of electric fence wire. Does not read voltage.

Stafix Digital Volt Meter
Item #: 822644
Readings from 200V to 9,900V. Auto On/Off. Replaceable 9V battery.

PMSI 8-Light Fence Tester
Item #: 143
Voltage Tester designed for low-impedance and standard duty energizers. 8 easy-to-read lights. Voltage readings - from 600v to 7000v. Indicates fence line & energizer voltage.

Stafix Fault Finder
Item #: FSTFC
A combined volt meter and current meter designed for quick location of faults.

Stafix Fence Alert
Item #: FSTFA
Simple device which flashes when low voltage is detected. Works with all low-impedance energizers.

Stafix Remote Control Fence Compass
Item #: FSTFCRC
3-in-1 tool designed for rapid location of problems on an electric fence. For use with Stafix remote-capable energizers only.

Stafix Lightning Diverter
Item #: 821956
Redirect lightning to ground to minimize charger/fence damage. Works great with wood.

Stafix Fault Finder
Item #: FSTFC
A combined volt meter and current meter designed for quick location of faults.

PMSI Porcelain Lightning Arrester
Item #: 122
2/pack

PMSI Voltage Spike Protector
Item #: 121

Stafix Lightning Diverter
Item #: 821956
Redirect lightning to ground to minimize charger/fence damage. Works great with wood.

PMSI HD Ground Rod Clamp
Item #: 126

PMSI 2-Piece Galv Ground Rod Clamps
Item #: 127
Use to secure underground cable to ground rod. Easy to use. 10/case

PMSI Flood Gate Controller/Energy Limiter
Item #: 128
Ideal for use near flood prone acreage.

Patriot T-Handle Ground Rods
Item #: SA111
Ideal for energizers and temporary fences that will be moved frequently. Galvanized steel, 30” long with 6” handle and tapered end.

Contact us with Product Questions or to find a Dealer near You.
T-POSTS INSULATORS
Use with polywire, polyrope, and steel/aluminum wire.

**Stafix T-Post Pinlock**
Item #: FSTTPIG
Pinlock allows for easy wire removal. Works with t-posts, wood or metal pipe posts. Sturdy pin for longer life. Reinforced jaws. UV stabilized for long life.
Green
25/bag - 20 bags/case

**Patriot T-Post Pinlock**
820017 (Black) or 820018 (Yellow)
Pinlock design allows for quick and easy removal of wires.
UV stable and designed for long life.
Yellow
25/bag - 10 bags/case

**Stafix T-Post Pinlock (Dual-Purpose) Insulator**
Item #: FSTTPIG
Pinlock allows for easy wire removal. Works with t-posts, wood or metal pipe posts. Sturdy pin for longer life. Reinforced jaws. UV stabilized for long life.
Green
25/bag - 20 bags/case

**Patriot Wrap-Around T-Post Claw**
Item #: 820016
Claw design. Provides added strength and support.
Yellow
25/bag - 10 bags/case

**Patriot Wrap-Around T-Post - 2 inch Extender**
Item #: 820029
Claw design. Protects existing fence by extending wire off t-post.
Yellow
25/bag - 10 bags/case

**Patriot Wrap-Around Front Side T-Post - 5 inch Extender**
Item #: 820022
Claw design. Protects existing fence by extending wire off t-post.
Yellow
25/bag - 10 bags/case

**Patriot Wrap-Around T-Post - 5 inch Extender**
Item #: 820036
Claw design. Protects existing fence by extending wire off t-post.
Yellow
25/bag - 10 bags/case

**Patriot Back-Side T-Post - 5 inch Extender**
Item #: 814705
Works well with polytape (1/2 in and 1-1/2 in) and coated/sighter wire too. Protects against scrapes on t-post.
White
10/bag - 10 bags/case

**Patriot T-Post Topper**
Item #: 820025
Claw design. Provides added strength and support.
Yellow
25/bag - 10 bags/case

**PMSI Dual-Purpose Large T-Post Pinlock Insulator**
Item #: 233-USA
Black
25/bag - 10 bags/case

**PMSI T-Post Wide Polytape and Polyrope Insulator**
Item #: 242
25/bag - 10 bags/case
**Patriot Rod Post Insulator**
Item #: 820020
Screw on rod insulator. UV stable. Fits posts 1/4" (6mm) to 9/16" (14mm) in diameter.
Yellow
25/bag

**Stafix Rod Post Multi-Fit Insulator**
Item #: 820846
Fits 1/4in to 9/16in diameter posts. Versatile design holds hi-tensile wire, polywire and polytape.
Black
25/bag

**Stafix End Strain Insulator**
Item #: FSTESG
Suitable for medium strain use.
Green - 25/bag

**ROD POST INSULATOR**
Use on polywire, 1/2" polytape, polyrope and steel/aluminum wire.

**END-STRAIN (CORNER) INSULATORS**

**PMSI 1-3/4 inch Porcelain Donut Insulator**
Item #: 230
For use in corners, curves and electrical fence ends.
Fire resistant.
White - 28/box

**PMSI SHD 20 inch Wrap-Around Insulator**
Item #: 238
10/bag
Great for insulating electric fence wire on your wood posts.

**PMSI SHD 24 inch Wrap-Around Insulator**
Item #: 240
10/bag

**Stafix XL SHD End Strain Insulator**
Item #: 222-W
Works great on Hotcote Wire!
See Item 762HC on page 33.
Suitable for high strain use. Reinforced glass filled polymer for maximum strength.
White - 25/bag

**Stafix End Strain Insulator**
Item #: FSTESG
Suitable for medium strain use.
WOOD POSTS PORCELAIN INSULATORS
Use with polywire, polyrope, steel/aluminum wire. Suitable for use as a line or corner post insulator. Fire resistant.

**Porcelain Screw-in Insulator (Small)**
- Item #: 814208
- White
- 25/pack - 4 packs/case

**Porcelain Screw-in 5 inch Insulator (Large)**
- Item #: 826051
- White
- 15/pack - 4 packs/case

WOOD POST INSULATORS
Use with polywire, polyrope and steel/aluminum wire.

**Patriot Wood Post Pinlock**
- Item #: 820034
- Pinlock design allows for easy removal of wires. Can also be used with metal pipes.
- Yellow
- 25/bag - 10 bags/case

**Patriot Wood Post Slant Nail 5 inch Insulator**
- Item #: 820027
- Protect existing fence by extending wire off post. Nails Included.
- Yellow

**Patriot Wood Post Slant Nail 2 inch Insulator**
- Item #: 820031
- Protect existing fence by extending wire off post. Nails Included.
- Yellow

**Stafix Wood Post Pinlock Insulator**
- Item #: FSTWPP
- Pinlock allows for easy removal of wire. Rugged, high strength pinlock design. Twin spark guards prevent arcing and increased distance from wire to post reduces risk of leakage. UV stabilized for long life.
- Green
- 25/bag

**Stafix Wood Claw Insulator**
- Item #: FSTWPC
- Rugged claw design for added strength and support. Twin spark guards prevent arcing and increased distance from wire to post reduces risk of leakage. UV stabilized for long life.
- Green
- 25/bag
WOOD POST INSULATORS
Use with polywire, polyrope and steel/aluminum wire.

PMSI 3/8 inch Drill Chuck
Item #: 229-DC
Use with Item No: 229
2/pack

PMSI Wood Post Pinlock Insulator
Item #: 226-USA
Works great with HotCote Wire!
Black
25/bag - 10 bags/case

PMSI Wood Post Pinlock Insulator
Item #: 337
Works great with HotCote Wire!
White
25/bag - 10 bags/case

Screw Bit
Item #: 441363
For all Ring Insulators and Maxi Tape Insulator
Easily screwed in due to its round shape. For drills and battery screwdrivers, as well as all ring insulators. Also suitable for Maxi Tape Insulator. Use with 229 Wood Post Screw-in Insulator.
1/pack

PMSI Wood Post Wide Polytape and Polyrope Insulator
Item #: 228
Use with up to 1-1/2in wide tape.
White
25/bag - 10 bags/case

PMSI SHD 4 inch Fin Tube Insulator
Item #: 239-SHD
175/box - 10 bags/case

PMSI Wood Post Screw-in Insulator
Item #: 229
25/bag - 20 bags/case

WOOD POST AND WIRE OUTRIGGERS INSULATORS

PMSI 10 inch Steel Wood Post Z Outrigger Insulator
Item #: 272-17
Use with traditional perimeter fence to create a electrified fence.

Stafix 12 inch Wire Outrigger with Pinlock Insulator
Item #: 271
Extends life of woven or barbed wire.
50/case

Stafix Zammer Gate Handle
Item #: 833472
White

PMSI Insulated Hook Gate Handle
Item #: 381
Ideal for temporary fence systems. Yellow

Drive-Thru Gate
Item #: 362
Adjustable 13’-19’

Patriot T-Post Gate Anchor
Item #: 814210
For use with t-posts. Economical option for building a gate between t-Posts. Use with polywire, polyrope, steel/aluminum wire. 2/pack - 5/case

Wood Post Gate Anchor
Item #: 313
Economical option for building a gate between wood posts. Use with polywire, polyrope, steel/aluminum wire. 2/pack - 5/case

PMSI Heavy-Duty Gate Activator
Item #: 355
Included in all Pasture Management Spring Gate Kits.

PMSI Wood Post Wide Polytape Anchor
Item #: 355WTA
Bolt lock provides great support for polytape used over long distances.
Types of Poly Fence Products

Polywire
- Ideal for temporary/portable fencing to support rotational grazing efforts
- Cattle, Horses and Sheep/Goat
- Use with Pigtail or Tread-In/Step-In Post

Polybraid
- Can be used for temporary or semi-permanent fencing
- 50% higher breaking point (strength) than Polywire
- Ideal for larger/stronger livestock
- Use with Wood Post, T-Posts and Fiberglass Rod Posts

Polytape
- Can be used for temporary or semi-permanent fencing
- ½ inch to 1 ½ inch wide provides highest visibility fencing
- Horse Friendly
- Use with Pigtail or Tread-In/Step-In Post (½ inch tape) or Wood Post, T-Post and Fiberglass Rod Posts (1 ½ inch tape)

Polyrope
- Ideal for semi-permanent fencing
- Wider diameter for higher visibility than polybraid
- Horse Friendly
- Use with Wood Post, T-Post and Fiberglass Rod Posts

What Voltage do I need for my Poly Fence?
Choosing the right Poly Fence Product is just as important as having the right charger. Voltage is not absolute! What may measure 8,000 volts at the start of the fence may only measure 550 volts at the end. The best way to determine the power through the entire length of the fence is the OHMS/Mile rating. The lower the OHMS/Mile number, the longer down the fence the initial voltage rating will hold. For under 400ft of fence powered by a strong charger with a high Joule rating, the OHMS/Mile rating will not mean as much. Any length greater than 400ft and you will want to invest in a product with a superior OHMS/Mile Rating. This will ensure that all sections of your fence will be “hot” enough to deter your livestock or potential intruders.

**REELS**

Use with polywire and polytape. **Not recommended for use with steel wire.**

- **PMSI Geared 3:1 Fence Reel**
  - Item #: 590+
  - Holds 660ft polytape or 1640ft polywire - UV-stabilized plastic nylon brushings reduce wear - Galvanized steel frame and crank handle.
  - **One Year Warranty!**

- **Mini Reel - 1:1 Ratio**
  - Item #: 580-MR
  - Handy for shorter lengths. Holds 800ft polywire or 330ft polytape.

- **Stafix Mega Geared 3:1 Fence Reel**
  - Item #: FSTGMRWH
  - Holds 1320ft polytape or 3300ft polywire. Solid steel crank.

- **Stafix Value 1:1 Ratio Reel With Handle**
  - Item #: FSTVRWH
  - Holds 1650ft polywire or 660ft polytape.

- **Stafix Geared 3:1 Fence Reel**
  - with **Multi-Purpose Gate Handle**
  - Item #: 822706A
  - Holds 660ft polytape or 1650ft polywire. Solid steel crank and no-tangle guide.
PMSI Tape Gate Buckle
Item #: 360
10/pack

PMSI Polyrope Connector
Item #: 535
5/pack

Litzclip® Connectors
Cost Effective - Continuous Electrification
Easy Handling - Secure Connection
No Tools Required for Mounting

Litzclip® Rope Connector for Polyrope
Item #: 442017
Ideal for connecting 2 rope ends up to 6 mm in diameter. The quick solution for repairing a torn fence rope. Special key-shaped punched opening for the easy introduction and secure fixing of the rope.
5/pack

Litzclip® 1-1/2in Wide Polytape Connector
Item #: 442002
Easy connection of 2 tape ends up to 40 mm. The quick solution for repairing torn fence tapes. Special punched rectangular openings for the easy introduction and secure fixing of the tape.
5/pack

Litzclip® Polywire Connector
Item #: 442003
Straight forward solution for repairing a torn wire up to 3 mm — Stainless Steel. Special key-shaped punched opening for easy introduction and secure fixing of the wire. Extremely resilient sealing caps made from plastic for locking and pressing the wire to the metal plate in order to ensure maximum conductivity. Plastic caps made from PA plastic with UV stabilize — No regranulate! Extremely long-lasting and impact resistant.
5/pack

Litzclip® 1/2in Polytape Connector
Item #: 442010
Easy connection of 2 tape ends up to 12.5mm. The quick solution for repairing torn fence tapes - Galvanized
5/pack

  - Zinc Cog and Hot-Dip Galvanized Strap
- **Economy In-Line Wire Strainer with Spring Lock**
  - Item #: 773-E
  - Economy In-Line Wire Strainer with Spring Lock
- **Stafix Spring Clip Wire Strainer**
  - Item #: 772-NZ
- **Spring Clip Strainer with Stainless Steel Strap**
  - Item #: 777
  - Tighten with 1/2in Drive Ratchet, 7/8in Wrench, Adjustable Wrench, or use Trellis-style!
- **Handle for In-Line Wire Strainer**
  - Item #: 774
  - Fits 772 and 773’s

**SPINNERS**

- **HD Wire Payout Spinner**
  - Item #: 680
  - The Industry’s Best!
- **HD Wire Payout Spinner**
  - Item #: 680HC
  - Specially Designed for Coated Hi-Tensile Wire!
  - Can also be used with Hi-Tensile Smooth Wire.
  - Spring break to control spin speed.
- **PMSI Economy Spinning Jenny**
  - Item #: 860

Manufactured in Mt. Pleasant, NC
CUTOFF SWITCHES, JUMPER LEAD & WARNING SIGN

Basic Fence Systems Design Checklist

For Permanent Electric Fencing Systems
- Wood or Rod Posts (pages 22 and 36)
- Hi-Tensile Electric Fence Wire (page 33)
- Wire Spinner (page 25)
- Wire Strainers/Tighteners (page 24)
- Insulators for Posts (pages 12-15)
- End Strain Insulators (page 13)
- Tension Clamps (293-SHD on page 23)
- Spring Gate Kit (page 16)
- Fence Charger (pages 4-9)
- Ground Rods/Clamps (page 11)
- Underground Cable (page 23)
- Fence Alert (FSTFA page 11)
- Fence Tester and/or Fault Finder (page 11)
- Cut-Off Switch (page 25)
- Lightning Diverter (821956 on page 11)
- Warning Sign (page 25)

For Temporary Electric Fencing Systems
- Strip-Grazing Posts (page 22)
- Polywire, Polybraid, Polyrope or Polytape (pages 18-19)
- Reel (page 20)
- Insulated Hook Handle (381 on page 16)
- Fence Charger (pages 4-9)
- Ground Rods (page 11)
- Underground Cable (page 23)
- Fence Alert (FSTFA page 11)
- Fence Tester and/or Fault Finder (page 11)
- Cut-Off Switch (page 25)
- Lightning Diverter (821956 on page 11)
- Warning Sign (page 25)

**Fence Tools**

### POST DRIVERS

**Titan Post Driver Features:**
- Drives the post in half the time of a manual driver!
- Easy to Lift, move and carry down the fence line.
- Comes with tool kit for servicing and a protective storage case.
- Accepts posts from 1” to 1⅞” in diameter.
- Drives up to 1,000 posts-per-gallon to save on fuel costs.
- 1” adapter sleeve included for ¾” to 1” posts.
- Internal dampening springs to lessen vibration to the operator.
- Handles are designed for comfort.
- Simple recoil pull start with trigger throttle and integrated stop button.
- 2 inch barrel.
- Powered by 1.3 horsepower, Honda 4-stroke engine.
- Weighs 35 pounds.

**TITAN PGD2000 Post Driver with Case**
- Item #: 695-WPD

**STAPLE GUN**

**Features:**
- Powerful cordless stapler for pressure treated posts.
- Easily used in confined or rough terrain areas.
- Maximum productivity no matter how tool is oriented, including upside down.
- Special designed nose for fence application.
- Well-balanced and includes a molded rubber comfort grip to insure safe, non-slip tool handling.
- Gas/Battery operated. Powerful NiMh battery.
- Lights indicate battery charge.
- Top loading magazine holds 75 staples.

**Applications:**
- Livestock batten fencing including hog and cattle panels.
- Electrified hi-tensile wire for livestock and predator control.
- Single-strand barbed and square wire.
- Plastic mesh barriers, pet enclosures and poultry fencing.
- Light mesh and light woven fencing for horticulture and nursery.

**40-315 Cordless Stapler**
- Item #: F70G

**DCX HD Staple**
- Item #: F458HD
- 10.5ga - 1-3/4” Barbed Hot-dipped galvanized (Diamond Coating X2)
- Approx. 1500 pieces per pail

**Fuel Cell**
- Item #: FFC

**Made in USA**

Item #: 652

**HD HT Wire/Cable**
Item #: 656

**SHD Multi-Use Tool**
Item #: 657-T
Crimps 623, 645 & 634-T Sleeves. Cuts wire and strips cable.

**High-Tensile Wire Cutters**
Item #: 814237
Cuts most types of fence wire.
Gripples & T-Clips

Medium Gripples
Item #: 601-MJ
880 lb. load
25ct MINI JAR

Benefits:
♦ Effective: securely joins & tensions wire
♦ Efficient: saves labor
♦ Economical: re-usable

Medium Gripples
Item #: 601-BJ
880 lb. load
200ct BULK JAR

LARGE GRIPPLE
Item #: 611-GP
1320 lb. load
Use on 7.5-10ga HT or Low Carbon wire.
10/pk

Barbed Wire Gripple
Item #: 611
350 lb. load
Use on 12.5ga Barbed wire only.
10/pk

Gripple Wire Twister
Item #: 658
The Finishing Touch!
Secures the tail wire to the line wire.
Use on 10-14ga wire.
100/bag

Gripple T-Clips
Item #: 602T-MJ
25ct MINI JAR

T-Clips
Fast, Easy Way to Secure the Tail Wire - Simply Twist and Push

Gripple T-Clips
Item #: 602T-BJ
150ct Bulk Jar

Contact us with Product Questions or to find a Dealer near You.
TENSIONING TOOLS

PMSI SHD Metal Contractor’s Tensioning Tool
Item #: 659-SHD

Gripple TORQ Tensioning Tool
Item #: 659-TTT

Prevents over-tensioning or under-tensioning of wire!
Simply set the tension gauge, squeeze the handles, and the tool CLICKS when the desired tension is reached!
Fits all Agricultural Gripple Joiners.

SPEED BRACE KIT

Contractor Pack!
Item #: 611-TUB

Contains 20 Speed Brace Kits
(17ft Cable and GP Large Gripple)
1320 lb. Load

### WHY USE S-KNOT WIRE FOR EQUINE, SHEEP, AND GOAT?

Smoothed (S) design of knot offers better protection of livestock’s skin and coat than Field Fence.

Non-climb wire protects animals from getting caught in wire.

Solid vertical stay and horizontal wires are connected by a separate piece of knotted wire, providing greater support.

### ELECTRIC FENCE WIRE

- **HotCote**
  - Item #: 762-HC
  - 1320ft coated, conductive HT wire, 200K psi, Galvanized, 12.5ga, C3
  - White with Black Stripes or **Solid Black**
    (Item #: 762HC-B)

- **Self-Dispensing Wire**
  - Item #: 714
  - 1320ft, 14ga, C3 on Wooden Spool

- **Hi-Tensile Wire**
  - Item #: 740
  - 4,000ft coil 180,000psi, 12.5ga, C3
  - 20/pallet
  - Wt. 100lbs

- **Hi-Tensile Wire**
  - Item #: 740-5
  - PMSI 5,000ft coil 210K psi minimum, 14ga, C3
  - 25/pallet
  - Wt. 89lbs.

Contact us with Product Questions or to find a Dealer near You.
**BENEFITS OF FIXED-KNOT WIRE**

### 12.5ga Hi-Tensile Class 3 Galvanized

**The STRONGEST...**
With the fixed-knot wire firmly binding it's vertical and horizontal wires, it offers greater strength and impact resistance than regular field fence.

**The TOUGHEST...**
Heavy-duty galvanized coating prevents rusting longer than fence with regular coatings. Meets requirements for ASTM:A641 Class 3 and A116 standards.

**And LOWER COST, too...**
Fixed-knot fence can be installed fast and easy! It requires fewer posts than traditional field fences, saving you time and money on both materials and installation.

### FENCE PROFILES

**NOMENCLATURE: Example: 20-96-6-330**
- 20 = Number of horizontal wires
- 96 = Mesh height (inches)
- 6 = Spacing between vertical wires (inches)
- 330 = Mesh length (feet)

### Is Fixed Knot Really More Expensive than Field Fence?

NO! In most cases, Fixed Knot wire will be less than Field Fence, when viewed in terms of total wire purchased (not per roll price).

- Fewer wood posts are needed for Fixed Knot due to wider spacing requirements. - 20ft spacing for Fixed Knot is recommended versus 10ft spacing for Field Fence.

The savings from buying fewer wood posts is greater than the price difference in Fixed Knot and Field Fence. This is in addition to the labor/time savings of having fewer posts to drive.
Pasture Management Systems is proud to offer a factory to dealer direct shipment program for fence wire on Pasture Management Wire, Rangemaster, Staylock, and Bekaert brands.

14 ga steel - 14ga Galvanized Steel  
Tubing with Clear-Coat Protector  
10ft x 2-3/8in diameter

**Vice-Bite Stay Bracket**  
Item #: VBA4

*ViceBite works on all styles of bracing!*

Superior Products...Exceptional Service...Since 1991!
Features and Benefits:

- Self contained hydraulics on both the 3pt and Skid Steer model
- Both models are free standing when not hooked up
- Skid steer comes with a universal mounting plate for easy hookup
- 3pt model comes standard with Cat II hookup and runs off 540 pto with optional 1000 pto
- Ability to slide the mast out up to 16" to ensure accurate post placement
- Drives up to a 12" diameter post up to a height of 12'
- 750 lb. hammer ensures you can drive post in any soil conditions

Works great with any Powder River item!
About Powder River

Powder River’s mission is to create safe interaction between people and their animals. They take pride in making equipment that helps ranchers be efficient and successful working up close and with their livestock. Founded in 1938, Powder River is known throughout the industry for manufacturing the most durable, high quality livestock handling equipment available. Their squeeze chutes and working systems are engineered for practical and reliable field use with minimal replacement parts that could slow down workflow.

The Powder River Advantage

- Long Term Investment – heavy duty and durable Powder River equipment holds its value and in some cases appreciates over time.
- 100% High Tensile Steel Products
- Laser Cut Precision Machining
- Premium Powder Coating Process
- In-house engineering supports constant Research & Development of livestock behavior patterns

Why Pasture Management Systems supports Powder River?

- Stability – we’ve distributed Powder River products since 1996
- The toughest product lineup on the market
- 5-year warranty available on many items
- Knowledgeable field reps will make farm calls to help you create your ideal system.

2000 SERIES CHUTES

All Powder River 2000 Series Chutes come with the following standard features:

- Side Exit feature for cow if needed to help prevent animal injury
- Split Tailgate allowing operator to work from either side of the chute
- Split Kick Hinged Panels provide easy access to animals legs or underside
- Double Sided Squeeze provides more leverage for the operator and centers/stabilizes animal to reduce stress
- Adjustable Floor Width

WEIGH SCALE INDICATORS

S3 Weigh Scale Indicator
Item #: 834021
Replaces the 5i and S1. Robust, waterproof, easy to install and fully portable.

EziWeigh7i Indicator
Item #: 829008
Improved Weighing - Increased Memory. Enter a comment or animal note, sort animals into predefined weight groups and view statistics for a herd or pen of cattle.

XR5000 Indicator
Item #: 823436
Replaces ID5000. Simple and quick to set up. 7” display. Fully featured Indicator designed to quickly and accurately capture animal weights. Track weight performance, identify poor performers and easily sort animals into groups.

FREE MIHUB LIVESTOCK MANAGEMENT SOFTWARE

MiHub Livestock Management Software is included with your indicator purchase. Upload weights and animal data into MiHub to monitor overall performance and help make key informed decisions. Instantly view the data online using your mobile device, USB flash drive or computer.

## Cattle Identification

### Herdsman Two-Piece Tags

Wide, thick neck that keeps tag from breaking. Strong, locking action with the rivet. Resilient stems and round flexible panel offers excellent retention. Solid tip on rivet will not transmit disease.

WaterWell™ Waterers

 Lower in profile to enable access for livestock of all sizes. Flotation balls act as a visual cue for water level. The balls help with water temperature control and to seal the Waterer in summer to reduce evaporation and keep the unit dark. This virtually eliminates algae growth. The float inside is square providing a greater flat surface area to encourage full water shut off once the desired water level is reached. The float arm allows you to easily adjust your water level. Keep the level high in summer to meet increased livestock demand and lower during the winter to prevent the flotation balls from freezing in the lid.

WaterWell™ 2
Item #: 831831
31 gallon water capacity
Up to 110 head beef
Drinking Height: 20.5 inches
Weight: 97lbs

WaterWell™ 4
Item #: 831830
60 gallon water capacity
Up to 215 head beef
Drinking Height: 20.5 inches
Weight: 129lbs

Why Use an Automatic Waterer?
Reliable and clean fresh water supply to your valuable livestock all year round that is frequently replenished.
Keeps water colder in summer and warmer in winter.
Energy-free versions virtually eliminate algae and reduce mosquito breeding.
Fully sealed to reduce evaporation in summer and freezing in winter.
Easy maintenance.
Reduces waste.
Won’t rust.
Impact resistant.

WaterPro™ Waterer
Higher in profile making it an ideal water source for larger animals.
Open top waterer is ideal for use in or near stable or shed. Insulated and securely sealed exterior drain plugs can also be used as interior plugs. This provides the flexibility to seal off one side for cleaning and maintenance without having to turn off the water supply. Access the water line easily through our side opening.

WaterPro™ 2
Item #: 831832
7 gallon water capacity
Up to 100 head beef/50 head horse
Drinking Height: 19.5 inches

Immersion Heater
Item #: 832381
250 Watt

Benefits of a Jobe Valve

- Manufactured in New Zealand
- Jobe Valves are float operated valves for automatic filling and refilling of water storage vessels.
- Jobe Valves can be mounted below water level to keep animals from damaging the valve.
- Only the float stays above the water level and animals cannot damage the float.

### MEGAFLOW Trough Valve

**Detachable, Long-Tail**
**Side or Bottom Mount**
**Underwater Mounting Only**

Good choice where its high flow, compact, non-corrosive construction is beneficial.

Use to maintain water levels in animal drinking troughs, water storage tanks, water cisterns and process applications.

### TOPAZ Float Valve

**Detachable, Long-Tail**
**Top, Side or Bottom Mount**
**Above or Below Water Mounting**

Good choice where its high flow, compact, robust, non-corrosive construction and high level of adaptability are needed.

Use to maintain animal drinking troughs, water storage tanks, water cisterns and irrigation applications.

**Anti-Siphon and Grade A Dairy Approved in Top-Mount Position!**

**Transz Former™**

**Transforms a common valve into a full flow valve!**

Unleashes the potential of your water supply.  
Fit your hose quickly & easily without twisting the hose.  
Fits most over the top clamp on float valves.  
Convert your existing float in seconds.  
Made tough to last.  
Has internal filter.  
Easy to clean.

**CONNECT Quick-Coupling**  
**Item #**: WT DQC  
For 3/4in Detach Valves  
Gives access to water without any tools!  
Robust & non-corrosive!  
3/4in pipe thread

**FrostPro**  
**Item #**: WT-FP  
FrostPro is a device that inserts into Topaz Valves that helps minimize freezing in cold weather conditions.

**Protect-A-Mount Bracket and Hood**  
**Item #**: WTAC30  
Protect your top-mounted Topaz & Rojo Valves!  
Mounts on any open stock tank.  
No tools required!
